Subject: Re: UIC/Aquifer Exemption permitting question

Hi Chris,

If you are referring to Class II related exemptions, then the DOGGR could provide applicants with status information regarding submittals made to EPA. Regarding completeness, we do not have standard protocols for aquifer exemption submittals, but I would envision we will have a contact point for applicants.

For UIC Permit applications submitted to EPA, we issue a completeness letter (or Notice of Deficiency letter, if not complete).

I hope that helps,
David

Good Morning David,

I just have a brief permitting questions that I hope you can help me with. Regarding UIC permits and/or Aquifer Exemption applications, does the EPA notify an applicant once an application is received and the EPA determines the application sufficiently complete for reviewing purposes? If so, can you tell me how the applicant is notified? (mail, email, phone)

Thank you for your time and assistance.
